FINSERV CONSULTING is a management consulting firm, focused on the global banking and alternative asset management industry. FinServ specializes in helping their clients align business processes with technology. Founded in 2005, FinServ has helped numerous top firms optimize their operations.

FinServ has the industry experience and technical expertise to solve business problems and identify opportunities for growth. We partner with our clients to manage complex projects, refine business strategies, and ensure their realization through the optimization of process, organization, and technology.

OUR TEAM is a diverse group of professionals with extensive financial services experience spanning the front, middle, and back office. We have the strategic expertise necessary to build optimal operating environments and ensure solutions are delivered on time and within budget. Every member of the FinServ team is trained in project management and we apply a consistent methodology to all our project work. Our team is passionate about helping our clients achieve exceptional results.

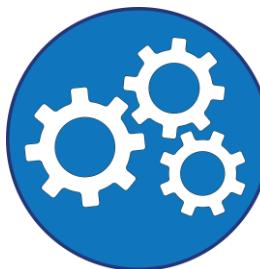

BUSINESS CONSULTING

Business process reengineering, information management, and vendor selections are just a few of the ways FinServ helps our clients create an organization that is prepared for the numerous regulatory or industry requirements either now or on the horizon.

SYSTEMS INTEGRATION

Extensive system experience across the front, middle, and back office allows FinServ to assist clients to select and integrate the best vendors and systems based upon our client's unique needs with strategic perspective.

SYSTEMS DEVELOPMENT

Proven experience in developing cost-effective systems when existing vendor applications are not available to meet the unique needs of our clients. FinServ offers onshore, offshore, and hybrid development options leveraging agile development techniques and tools.
